B. That sounds good. I'll finish it.

C. All right. I agree with your points.

D. What are you going to do this Sunday?

Read the following passage below and decide which answer (A, B, C or D) best fits each space

Homelessness is a pressing social issue (21) _____ affects millions of people around the world. Defined as lacking a stable, safe, and adequate place to live, homelessness transcends geographical boundaries and impacts individuals and families from diverse backgrounds.

One of the primary causes of homelessness is the lack of affordable housing. Rising rents and property prices have pushed many individuals and families out of the housing market, forcing them to seek shelter in temporary accommodations or on the streets. (22) _____, economic hardships, jobs loss, and limited access to social support systems can exacerbate the issue, leaving vulnerable populations at an increased risk of becoming homeless. A significant subset of the homeless population comprises individuals struggling (23) _____ mental health issues. The lack of proper mental health care and support can lead to a downward spiral, leaving people without the resources to maintain stable housing or employment. Tragically, this cycle perpetuates their homelessness, making it difficult for them to reintegrate into society. Another vulnerable group affected by homelessness is youth. Many young people experience family breakdowns, abuse, or neglect, leaving them without a stable home environment. Without proper guidance and support, they can end up (24) _____ on the streets, facing increased risks of exploitation, substance abuse, and involvement in criminal activities.

Homelessness not only impacts individuals' well-being but also places a burden on society as a whole. It strains public resources as governments try to provide emergency shelters, food, and medical care for the homeless population. Additionally, it creates challenges for local communities as the presence of homeless encampments can lead to concerns about safety and public (25) _____.

Question 21: A. who **B. that** C. when D. where

Question 22: **A. Moreover** B. However C. Therefore D. Otherwise

Question 23: A. by **B. with** C. for D. of

Question 24: A. to live B. to be lived **C. living** D. being lived

Question 25: **A. health** B. attention C. argument D. mentality

Read and then choose the best answer.

Preserving the ecosystem is crucial for the well-being of our planet and future generations. The ecosystem refers to the interconnected network of living organisms and their physical environment. It encompasses various ecosystems, such as forests, oceans, grasslands, and wetlands, each playing a vital role in maintaining the balance of nature. Preserving the ecosystem is essential because it supports biodiversity, regulates climate, provides valuable resources, and offers countless benefits to humans and other species.

Biodiversity, or the variety of life on Earth, is a fundamental component of a healthy ecosystem. Each species, from plants to animals, plays a unique role in maintaining the ecosystem's stability and functionality. By preserving diverse habitats and protecting endangered species, we can ensure the preservation of biodiversity. Furthermore, ecosystems contribute to climate regulation by absorbing carbon dioxide, a greenhouse gas that contributes to global warming. Forests, for example, act as carbon sinks and help mitigate climate change. Preserving these natural habitats is crucial in combating climate change and its associated impacts.

Moreover, preserving the ecosystem also ensures the availability of valuable resources that sustain human life. Ecosystems provide essential services such as clean air, clean water, fertile soil, and natural resources like timber, food, and medicine. By practicing sustainable and responsible use of these resources, we can ensure their availability for future generations. Additionally, a healthy ecosystem offers recreational and aesthetic benefits, providing opportunities for outdoor activities, relaxation, and connection with nature. Preserving the ecosystem requires collective efforts from individuals, communities, governments, and organizations. It involves adopting sustainable practices, reducing pollution and waste, conserving energy and water, supporting conservation initiatives, and promoting environmental education. By working together, we can contribute to the preservation of the ecosystem, protect our planet's natural resources, and ensure a sustainable and thriving future for all.

Question 26: Which of the following can be the best title for the passage?

- A. The Importance of Preserving Ecosystems for Future Generations**
- B. The Role of Biodiversity in Maintaining Ecosystem Stability
- C. Sustainable Practices for Preserving the Ecosystem
- D. Valuable Resources Provided by Healthy Ecosystems

Question 27: According to the passage, preserving the ecosystem is essential because of the following reasons EXCEPT_____.

- A. Ecosystem supports biodiversity.
- B. Ecosystem regulates climate.
- C. Ecosystem provides valuable resources.
- D. Ecosystem generates countless energy.**

Question 28: The word “It” in paragraph 4 refers to _____.

- A. organizations
- B. sustainable practices
- C. preserving the ecosystem**
- D. collective efforts

Question 29: Which of the following is not true according to the passage?

- A. Preserving the ecosystem supports biodiversity and regulates climate.
- B. Ecosystems contribute to climate change through the emission of greenhouse gases.**
- C. Ecosystems provide valuable resources such as clean air, water, and natural resources.
- D. Preserving diverse habitats and protecting endangered species help ensure biodiversity.

Question 30: Which of the following can be inferred from the passage?

- A. Ecosystem preservation solely relies on the efforts of governments and organizations.
- B. Sustainable practices are essential for the long-term preservation of the ecosystem.**
- C. Ecosystems have no impact on climate regulation.
- D. The benefits of preserving the ecosystem are limited to humans only.

II. PHẦN TỰ LUẬN

Complete the sentences with the correct tenses or forms of the verbs given in the brackets
